

Alexei V. Tetenkin, Ph.D.

Curriculum Vitae

Contacts: **Home address:** 664056, Russia, Irkutsk, Primorsky, 8-26.
Telephones: *office:* +7 (3952) 405-186, +7 (3952) 405-214,
 home: +7(3952) 420-381, *mobile:* +79246046723.
E-mail: altet@list.ru

Current Position: **Assistant-Professor** of the Department of History and Philosophy at the National Research Irkutsk State Technical University (since 2001);
Research Fellow at the INRTU's Laboratory of Ancient Technologies;
Senior Engineer of the Centre for Geodynamics and Geochronology (CGG) of the Institute of the Earth' Crust (IEC) of the Siberian Branch of the Russian Academy of Sciences (SB RAS)
Member of the Editorial Board at *Reports of the Laboratory of Ancient Technologies*, an INRTU journal (since its foundation in 2003).

Past Employment: 1999-2001: **Junior Research Fellow** at the Laboratory of Archeology and Palaeoecology of the Institute of Archeology and Ethnography of Siberian Branch of Academy of Science of Russia;
1994-1999: **Senior Lab Assistant** at the Laboratory of Archeology and Palaeoecology of the Institute of Archeology and Ethnography of Siberian Branch of Academy of Science of Russia.

International Cooperation: 2006: **University of Alberta** (Edmonton, Canada): 2 month research trip as part of Baikal Archaeological Project. The aim of my research was to study the experience of the archaeology of the North-Western Plateau of Northern America (basins of rivers Columbia and Fraser) and its relevancy for archaeology of the Neolithic sites in Cisbaikal Region [See Teten'kin 2007 in Publications].
2006: **Texas A&M University** (College Station, USA): Workshop "Pleistocene peopling of the Northern Siberia and Beringia" carried out under the aegis of INQUA by Center of the study of first Americans (CSFA). My collaboration with archaeologists from CSFA bore fruit in such publications as "Current Research in Pleistocene" [Teten'kin 2005] and in volume «From the Yenisei to the Yukon» [Ineshin and Teten'kin 2011].

2013-2014: Fulbright grantee at the Center of Studying of First Americans at Texas A&M University, College-Station, USA.

2018 – present: Co-leader of the Russian – French Research Project “Late Pleistocene Hunter-Gatherer Adaptations to Tundra Environments in North-Baikal Siberia” (Russian Foundation for Basic Research – Maison Fondation Sciences de l’Homme).

Education: 1999, **PhD in History** with the thesis titled “Geoarchaeological location of Pleistocene-Holocene in Patom Highlands: chronostratigraphy, morphotypology, periodization” (submitted under supervision of prof. G.I. Medvedev). 1994-1997, **Post-graduate studies** at the department of archaeology and ethnography of Irkutsk State University, my research dealt with the systematization of archaeological sites of the Patom Highlands. 1994, **Master's Degree in History** from Irkutsk State University with major in studies of Paleolithic, Mesolithic, Neolithic periods of Cisbaikalian region. My degree paper titled “Archaeological Site Baday V: Problems of Geoarchaeological Characterisation” concerned the Upper Paleolithic artifacts of South Angara Region (submitted under supervision of Prof. N.E. Berdnikova).

Courses Taught : “History of the archaeological discoveries”; “Introduction to archeology”; “Culturology” (in 2003 this course was published as a text book for the students of the ISTU); “History of Russia”; “History of Siberia”; “Political science”; “History and theory of religions”; “Philosophy”.

Field Experience: *Took* (in many cases leading) *part in* the following archeological *expeditions*:

Southern part of Angara basin:

1987-1988 – the site on Ust’-Belaya river;

1988, 1990 – sites Igetei, Igeteisky Log 1-3;

1990 – the site Verkholskaya Gora;

1991-1993 – sites Khaitinsky Most, Badai 5, Mal’tinsky Most 1, Mal’ta;

2000 – the site Ust’-Khaita.

Upper part of Lena basin:

1989-1990, 1992, 1994 – sites of Kachugsky district Manzurka, Makarovo 1-5, Makrushino, Shishkino 1-8 and others.

Ol’khon Area of Lake Baikal:

2002 – the site Barun Khal 3;

Basin of Vitim River and Patom Highlands:

1992-1993, 1995-2020 — sites Stary Vitim 2, Bol'shoi Yakor' 1, Kovrizhka 1-4, Mamakan 1-6, Invalidny 1-3, Pavlova, Niryakan sites on the valleys of rivers Mama, Zhuya, Muya.

Yakutia:

2010 – conducted archeological survey along the River Timpton.

2000 – *headed large scale conservation operation* at the multilayer site Ust'-Haita 1 on Belaya River

took part in discovery of about 15 archaeological *locations* in valleys of Vitim, Lena, Zhuja, Mama, Irkut, Kaya, Angara, Belaya, including sites Kovrizhka 1-5 (the most widely known among those discoveries).

Conferences:

2011, 2014, 2017 – Russian Archaeological Congresses in Staraya Russa, Kazan', Belokurikha;

2005, 2007, 2009, 2011 – archaeological conferences “Sociogenesis of Northern Eurasia”, as a member of Organizing Committee.

2007, 2009, 2011, 2013, 2015, 2017, 2019 – archaeological conferences “Ancient cultures of Mongolia, Baikal Siberia and North China”.

2012, 2014, 2015, 2016, 2018, 2019 – archaeological conferences “Eurasia in Cenozoic”, Irkutsk.

2013 - archaeological conference Paleoamerican Odyssey, Santa Fe, USA

Most annual regional Siberian archeological conferences since late 1980s.

Scientific Interests: Upper Palaeolithic, Mesolithic, Neolithic findings of Baikalian Siberia, theory and methodology of archeology of Stone Age, geoarcheology, palaeoecology.

Publications: **Summary:** co-authored one major monograph and wrote 98 scientific articles including two published in USA and one in South Korea.
