

## SUMMARY OF TEACHERS

*Ivanova Margarita Alexandrovna 08.08.1974, Associate Professor IRNITU,  
8-902-7-66-68-75, e-mail: rita-iva@yandex.ru*

*Irkutsk State Technical University with a degree in Environmental Protection and Rational Use of Natural Resources, 1996. Candidate of Technical Sciences in Geoecology, Associate Professor of the Higher Attestation Commission.*

*Associate Professor of the Department of Mineral Processing and Engineering Ecology (concurrently) from 01.09.12 to the present.*

### Main scientific interests:

Environmental and industrial safety of production, environmental legislation, use and recycling of industrial waste, urban greening, methodological foundations of teaching graphic disciplines, AutoCAD

### Major publications:

- 1. Preparation and holding of business games implementation of e-learning students of the construction areas To cite this article: Margarita Ivanova and Andrey Ivanov 2019 IOP Conf. Ser.: Mater. Sci. Eng. 667 012033*
- 2. Situational tasks as an interactive teaching method Ivanova M.A., Verkhoturova E.V. In the collection: The quality of training of specialists at a technical university: problems, prospects, innovative approaches. materials of the IV International Scientific and Methodological Conference. Educational institution "Mogilev State University of Food". 2018. P. 62-63.*
- 3. Features of teaching graphic disciplines among students of the direction 21.05.04 MINING. Klimenkova S.B., Ivanova M.A. In the collection: Pedagogical and sociological aspects of education. Materials of the International Scientific and Practical Conference. Educational institution "Mogilev State University of Food". 2018. P. 75-76.*
- 4. Application of a mobile complex of thermal neutralization (INSINERATOR): KTO-50 during well construction. Ivanova M.A., Klimenkova S.B., Zolotuev R.S. In the collection: Aviation engineering and transport of Siberia. Collection of articles of the V All-Russian scientific-practical conference. IRNITU, 2015. P. 278-283.*
- 5. Complex processing of waste products from the pulp and paper industry. Monograph. Bogdanov A.V., Rusetskaya G.D., Mironov A.P., Ivanova M.A. Irkutsk, ISTU, 2000, 460 p.*

Subjects and courses taught in the current academic year:

- Course "Environmental standards" 3 semester, 1 hour of lectures and 1 hour of practical training per week, as well as extramural form 30 hours per academic year.

- The course "Standardization of waste generation and disposal" 1 semester, 1 hour of lectures and 1 hour of practical training, as well as correspondence course 14 hours per academic year.

Other duties performed during the school year:

- Management of research and development of undergraduates 3 hours a week, management of master's theses 8 hours a week, management of scientific research practice 6 hours a year, development of an educational and methodological complex of disciplines "Environmental standards", "Scientific foundations of environmental management", "Rationing of education and waste disposal" and "Environmental quality regulation".

- The work of an associate professor at the department of advanced training and retraining of personnel of INRTU, including participation in the development of the Presidential program for the training of engineering personnel, performance of work for industrial enterprises and organizations.

- Lecturer at the independent certification and methodological center for training managers and specialists in the field of "Environmental safety", including the programs "Handling hazardous waste" and "Environmental safety in the field of handling hazardous waste".

Personal internships and professional development:

- IrGTU, IRNITU MRTSPK (2005, 2010, 2015, 2017, 2018)

- Moscow, SPC "LOGOS" (2008)

- Hannover, Germany, European Academy of Natural Sciences (2013)

- Moscow, LLC "Paradigma" (2020)

- Moscow, LLC "Yurayt-academy", Summer teacher's school (2020)

- Moscow, Federal State Budgetary Institution "Federal Institute of Industrial Property"
