

# CURRICULUM VITAE

## PERSONAL DATA

Name: Nikolai Ivanov  
Date of Birth: 1954. 02. 07  
Sex : Male  
Scientific degree: PhD  
Position: professor assistance of Irkutsk National Research Technical University \ Institute of high technology ()

Address: Office: 83 Lermontova str., Irkutsk, 664074, Russia  
E-mail: [ivnik@istu.edu](mailto:ivnik@istu.edu)  
Tel/Fax +7-3952-405903

## EDUCATION & EMPLOYMENT

1961 – 1971	High school
1971 – 1976	Irkutsk State University \ Department of Physics (Student)
1976 – 1977	Irkutsk State University\Experimental Physics (Head of experimental lab)
1977 – 1979	Irkutsk State University\Applied Physics Institute (Research engineer)
1977 – 1980	Irkutsk State University\ Postgraduate course (Postgraduate student)
1980 – 1985	Irkutsk State University\ PhD research course (PhD thesis: "F-aggregate Color Centers in LiF and NaF Crystals and Parameters Optimization of Optical Laser Elements on the base on."
1985 – 1991	Irkutsk State University\ Applied Physics Institute\ Researcher of Laboratory of Crystals Luminescence and Physics of Lasers Media (Researcher)
1991 – 2005	Irkutsk State University\ Applied Physics Institute (Head of research group, Prof. Assistance of General Physics Department).
2005-2008	Irkutsk State Technical University\ Physics-Technical Institute (Vice-Director)
2008-2011	Irkutsk State Technical University\ Physics-Technical Institute (Head of department of laser physics and nanotechnology).
2012-2017	Irkutsk National Research Technical University\ Physics-Technical Institute (Director)
2017-2022	Irkutsk National Research Technical University \ Institute of high technology (professor assistance)

## PROJECTS

1976 – 1977	"Thermoluminescent stratification geological rocks"
1977 – 1979	"Color centers luminescence in alkali halides crystals and tunable laser"
1980 – 1985	" Passive Q-switch on the base color centers in alkali halides crystals"
1985 – 1989	"Lasers on the base LiF and NaF crystals with transformation F, $F_2 - F_2^+$ at flash lamp pumping"
1990 – 1996	"Raman lasers with intracavity stimulated Raman scattering "
1997 – 2002	"Polarization of luminescence in alkali halides crystals with color centers"
2002 – 2004	"Solid state lasers for photodynamic therapy"
2005 – 2012	"Optical properties of crystals and crystalline films with nanoparticles"
2009 – 2011	"Theoretical and practical foundations for the isolation and use of carbon nanoparticles from solid carbon-containing wastes of aluminum production"
2010 – 2012	"Development of technology and creation of an integrated high-tech production of high-purity spherical quartz granules for the electronic component base of the Russian Federation"
2010-2012	" Development of Algorithms for X-Ray Spectral Measurement of Wear Particle Parameters in an Oil Flow".
2016 – 2018	"Development of an integrated resource-saving technology and organization of high-tech production of nanostructures based on carbon and silicon dioxide to improve the properties of building and structural materials".
2018 – 2020	"Development and creation of a software and hardware microwave plasma complex for monitoring, control and safe operation of the oil system of ground and air engines".
