

VAASA UNIVERSITY OF APPLIED SCIENCES

Vaasa University of Applied Sciences is a modern and international university of applied sciences, which provides high level theoretical and practical oriented education in Finnish and English. VAMK is closely linked to the energy sector of the Vaasa region. Every year more than 400 students from all over the world come to exchange programs taught in English at VAMK. The university is located in Vaasa, Finland. This region is one of the most international in the country. Vaasa is home to people from over a hundred different nationalities who study and work in energy-related fields. Here history and modernity, culture and nature are in close contact. Small parks and architecture create an unique atmosphere in the seaside town.
