**Full-time education,
the INRTU student**

**Grade Point Average
(GPA)**

GPA 4.0 for "techies"

GPA 4.2 for "economists"
and "humanitarians"

INRTU OVERSEAS PARTNER UNIVERSITIES

THE KARLSRUHE INSTITUTE OF TECHNOLOGY (KIT)

The Karlsruhe Institute of Technology (KIT) is the oldest technical university in Germany and the fourth university in Europe after Technical Universities of Prague, Paris and Vienna. A car-inventor Karl Benz and "the father of the hydrogen bomb" Edward Teller studied in KIT. In 1888 Heinrich Rudolf Hertz discovered electromagnetic wave in the Karlsruhe Institute, and two years earlier he had studied systematically photo-effect together with his student Wilhelm Hallwachs. Heinrich's colleague professor Karl Ferdinand Braun developed the first variant of cathode ray tube in 1897. In 1860 the First World Chemists Congress took place on the base of the universities, in which the protectors of chemical atomism in acute struggle with their opponents carried the day. Dmitry Ivanovich Mendeleev was an active participant of that congress.

VIADRINA EUROPEAN UNIVERSITY IN FRANKFURT (Oder)

EUROPEAN UNIVERSITY VIADRINA IN FRANKFURT (ODER)

European University Viadrina is a state university in Frankfurt an Oder in Germany. The university began to develop its academic mobility in 1506. 900 students from Germany, Poland, Sweden, Norway, Denmark had studied at Viadrina European University after its foundation. No more than five thousand citizens had been living those years in Frankfurt-an-Oder and the city was regarded as university one. Studying at the Viadrina students can enjoy the benefits both urban and country life thank to the good location of the campus in the Frankfurt-an-Oder area. The university ranks among the 90 best universities in Germany. The famous graduates of the Viadrina European University were Ulrich von Hutten, Thomas Münzer, Wilhelm and Alexander Humboldt, Karl Philip, Emmanuel Bach, Heinrich von Kleist, etc.

TECHNISCHE HOCHSCHULE BRANDENBURG UNIVERSITY OF APPLIED SCIENCES

BRANDENBURG UNIVERSITY OF APPLIED SCIENCES

Brandenburg University of Applied Sciences is located in a city with a thousand-year history. A distinctive feature of the University is the practice-oriented teaching. The students have a great opportunity to get a real work experience in partner enterprises. The faculties have a high level of international accreditation. University leadership is against overcrowded classrooms and excessive number of students, considering that young people will not have the opportunity to receive consultation or advice from a teacher. Because of it, Brandenburg University of Applied Sciences accepts no more than 3000 people every year. There are representatives from more than 60 countries of the world among the students.

SUNGKYUNKWAN UNIVERSITY

Sungkyunkwan University is a private comprehensive research university in South Korea. The institution traces its origins to the historical Sungkyunkwan founded in 1398 by the Joseon Dynasty located in the heart of central Seoul. As the foremost educational institution of the Joseon Kingdom, it was governed by the great code of the state administration with royal assent. It was restructured into a university in the late nineteenth century, and has since greatly expanded its course offerings and reputation, which is attributed to its numerous influential graduates, strong research output, and close partnership with Samsung. Being one of the premier universities in the country, SKKU has been consistently maintaining its reputation internationally as well. It was featured in Nature Index in 2017 as one of the premier universities in South Korea. QS World University Rankings 2020 ranks it 95th, while Times Higher Education puts SKKU in 82nd place worldwide.
